MDZ13

The compact entry-level model for any cash desk

The ANKER MDZ13 cash drawer is a compact and efficient solution for every checkout area and is the ideal entry-level model. The solid all-steel construction and attractive price-performance ratio make it an ideal product solution for all standard applications at the point of sale.

This ANKER cash drawer can be conveniently controlled via the printer. It has a fully removable cash insert with 8 compartments for coins and 4 for banknotes. The insert for coins can be removed separately.

The metal banknote holders are extremely stable and reliable. The MDZ13 is also equipped with a practical slot for inserting receipts and vouchers.

The pull-outs are fitted with high-quality nylon rollers that have been tested for at least 100,000 openings/closings. Whether in the catering or retail sector – our cash drawers impress with their durability and robust, timeless design. You benefit from attractive prices without compromising on quality and reliability.

MDZ14

A space-saving basic model, suitable for any cash desk

The MDZ14 cash drawer from ANKER offers a compact yet solid entry-level option for any checkout area. Its robust design and favorable price-performance ratio make it the ideal choice for all common applications at the point of sale.

This ANKER cash drawer can be easily controlled via the receipt printer. It has a fully removable cash insert with 8 coin compartments and 4 compartments for banknotes. The coin insert can also be removed individually for flexible handling.

The metal banknote holders guarantee particularly high durability. The drawers are fitted with high-quality nylon rollers that have been tested for at least 100,000 openings/closures.

Our cash drawers are ideal for use in the catering and retail sectors. They are characterized by their robustness, timeless design and durability. Enjoy the attractive price-performance ratio without having to compromise on quality and reliability.

MDZ16

The flexible standard size

The heavy-duty MDZ16 cash drawer, ideal for all applications. Its cash insert offers space for 8 coin and 4 note compartments. The insert can be removed completely and the coin compartment can also be removed separately.

The rear row of coin compartments can be flexibly customized using the plug-in dividers. This allows the number of coin compartments to be reduced or extended and the compartment sizes to be customized. The MDZ16 has two slots for inserting receipts and vouchers.

The note dispensers, made of metal, guarantee an exceptionally long service life.

The drawers are fitted with high-quality nylon rollers that have been tested for at least 100,000 openings/closures.

Our cash drawers are ideal for use in the catering and retail sectors. They impress with their durability, classic design and long service life. You can also benefit from an excellent price-performance ratio without having to compromise on quality and reliability.

MDX32

The small one with the certain something

This compact drawer is a space saver which makes it the ideal basis for touch screen cash registers, e.g. in book shops, at kiosks or at bakeries. The ideal drawer for small spaces at the POS.

The practical and well-thought-out layout of the insert with upright note compartments and the 2 additional universal compartments, e.g. for rolled coins and receipts, guarantee a smooth workflow. The slot for receipts and coupons allows further flexibility.

The robust all-steel construction as well as the galvanized, ball bearing mounted telescopic runners provide stability and, in addition to the proven locking mechanism, they help to ensure the security of the money.

In addition, the MDX 32 cash drawer comes with a removable cash insert with lockable lid as standard.

MDX43

The unique one with integrated lid storage

This drawer has a special feature: the insert lid is automatically stored and secured in the cash drawer housing until the end of the shift. At the beginning of the shift, place the insert and lid in the open drawer. Unlock the lid and close the drawer. When the drawer is closed, the lid lifts from the insert and attaches to the top of the drawer housing. At the end of the shift, the lid can be extended at the push of a button and locked onto the money insert.

An additional compartment for rolls of coins allows safe storage and quick refilling.

The robust all-steel construction as well as the galvanized, ball bearing mounted telescopic runners provide stability and, in addition to the proven locking mechanism, they help ensure the security of the money.

MDS45

High capacity with short depth

Due to its low installation depth the MDS 45 is perfectly suited for installation on and under the counter. The MDS 45 is the ideal solution, especially in confined spaces behind the counter.

The drawer pulls out to just 190 mm to provide full access to the cash register insert. This gives staff more room to move behind the often cramped sales counter.

The coin insert with 8 separate coin cups can be removed en bloc. Upright note compartments with pressure plates allow many notes to be stored in each compartment. An universal compartment for receipts and rolls of coins is located below the coin section.

MDS 45 — the first choice for quality-conscious bakeries, food trucks and all applications that require a low pull-out depth.

DRAWER RUNNERS	Ball bearing mounted rails
LOCKABLE LID	Optional

MDS54

The individual for small depths with maximum capacity

Due to its low installation depth the MDS54 is perfectly suited for installation on and under the counter. The drawer is the particularly suitable where space is limited behind the counter.

The wide cash drawer offers space for a generous cash insert with big coin cups to hold even larger amounts of change. The removable cash insert can be configured individually, e.g. to keep banknotes further away from passing customers.

The coin insert with 8 separate coin cups can be removed en bloc. Upright note compartments with pressure plates allow many notes to be stored in each compartment. A universal compartment for receipts and rolls of coins is located below the coin section.

The robust all-steel construction as well as the galvanized, ball bearing mounted telescopic runners provide stability and, in addition to the proven locking mechanism, help safeguard the cash reserves.

Closed drawer

Double insertion slot for separating documents

THE MDS54 AT A GLANCE

UCDM

Modern, flexible, functional and safe

The robust universal drawer convinces thanks to its numerous installation options. Not only can it be conveniently positioned on the counter, it can also be installed under the counter by mounting a frame. The third option is unique on the market: for the UCDM to make a real statement at the cash desk, it can be partially recessed in the countertop.

The cash insert is easily removed and folded as a closed system for safe transport to the back office. It can be secured with a security lock. Due to its compact size, the folded money tray can easily be stored in the safe.

The variable money insert can be individually adapted. It has 4 note compartments and 8 coin cups as standard. If required, 2 coin cups can be combined to form a 5th note compartment. By adding further separators, the remaining 6 coin cups can be increased to 8.

ANKER offers a different version of the UCDM, where a Flexi Stand can be installed.

Open foldable insert

Foldable inner insert for safe transport to the cash office

THE UCDM AT A GLANCE

UCD

The universal lightweight with plenty of space

The lightweight universal drawer is not only easily installed on the counter, but can also be installed under the counter with two mounting brackets. The cash insert is easily removed and folded as a closed system for safe transport to the back office. It can be secured with a security lock. Due to its compact size, the folded money tray can easily be stored in the safe.

The variable money insert can be individually adapted. It has 4 note compartments and 8 coin cups as standard. If required, 2 coin cups can be combined to form a 5th note compartment.

By adding further separators, the remaining 6 coin cups can be increased to 8.

It offers unrivalled functionality at the POS, is user-friendly, versatile, and sturdy. Its high-quality plastic housing is also lightweight and robust. The UCD is also absolutely reliable for heavy use.

MDX16 Push

Space-saving with plenty of interior space

The robust cash drawer for every application. The practically designed interior of the drawer has an insert with 9 coin compartments and 4 note compartments. The ANKER MDX16 Push cash drawer can be opened manually and requires no connections or power supply. The 3-position cylinder lock closes the drawer reliably and securely. The ball-bearing runners allow the drawer to run smoothly,

so that the drawer opens smoothly with light pressure on the drawer front.

The MDX16 cash drawer is elegant, durable and efficient – the perfect choice for your point of sale!

MDX18 Push

The big alternative

The practical cash insert is divided into 8 coin and 5 note compartments. The size of 4 coin compartments can be adjusted and the coin insert can be removed separately. The entire cash insert can also be removed en bloc. 2 practical slots for slips and receipts increase the functionality of the drawer.

The ANKER MDX18 Push cash drawer is a manually operated cash drawer that functions without an external power supply.

The sturdy metal construction combined with the 3-position cylinder lock with 2 keys ensures theft-proof use. The drawer runs on ball bearing slides.

The MDX18 Push is the large, cost-effective cash drawer for your point of sale!

MDX13E Push

The compact starter model

The ANKER MDX13E Push cash drawer is a manual cash drawer that can be opened by hand and requires no connections or power supply.

Like its sister model, the MDX13E, the MDX13E Push is suitable as a compact entry-level model for any cash desk. Its solid construction and attractive price-performance ratio make it an ideal product solution for all standard applications at the point of sale. A high-quality lock ensures that unauthorized persons cannot gain access.

unauthorized access.

The MDX13E Push can be easily opened and closed using the push function. The drawer interior offers space for 8 coin compartments and 5 note compartments.

Whether in the catering sector or at the supermarket check-out our cash drawers impress with their durability and robust, timeless design. You benefit from attractive prices without compromising on quality and reliability.
