

ANKER HISTORIE

2021

With the **acquisition of PORESY Consulting GmbH**, the implementation and service provider for POS systems, ANKER is expanding its range of services to include software development, customising, implementation and long-term support for POS systems, including 24/7 first and second level support. The ANKER Group has advanced to become a holistic provider of modern checkout and self-checkout systems for small retailers or large area markets.

2019

ANKER acquires the Berlin-based software company **LocaFox GmbH**. The cloud-based software solutions are predominantly aimed at individual companies to small and medium-sized enterprises from the retail environment.

2015

With the help of **German private investors**, ANKER is spun off from the Oracle Group in 2015. „ANKER Kassensysteme GmbH“ is again an **independent manufacturer of components for the point of sale**.

2007

The entire group was taken over by the financial investor Cerberus Capital Management through the newly founded Torex Retail Holdings Limited. **In mid-2012**, the company is taken over again, this time **by Micros Systems**, which in turn is taken over by Oracle in the summer of 2014.

1995

In 1995, the **ADS ANKER group was sold** to the European Acquisition Company (EAC).

1976

In 1976, the year of the company's **100th anniversary**, the board of Anker-Werke **files for bankruptcy**; ANKER had failed to make the transition to electronic cash register systems.

1915

In 1915, the company was renamed „Anker-Werke AG“. **Sales in registration machines grow to 50%** of total revenues and exceed the sales of the other business units for the first time.

1894

In 1894, **bicycles** were added to production as sales faltered.

1876

Founded 1876 by **Carl Schmidt** as „Bielefelder Nähmaschinen Fabrik Carl Schmidt“.

Anker

RK10

ANKER RK10

In cooperation with a design office, **we created the RK10 from the idea to the development to the finished product.** Everything from one source - everything „Made in Germany“. ANKER relies on **clean workmanship, high-quality materials** and **modern design.**

EASY SETUP

The **RK10 is delivered assembled.** Only the optional hardware components, such as printer, tablet, customer display, are **inserted almost without tools.** Only **two screws** are used to hold the printer and the display in position. The **covers** are fixed by means of **magnets** and can therefore be quickly

MATERIAL AND FINISHING

Only **high-quality materials** such as steel, copper, wood, etc. are used for the RK10. This makes the cash registers correspondingly **robust** and gives them an **exquisite appearance.** Our RK10 is available as an **elegant stainless steel version RK10S** or as a **stylish copper version**

The retrofit version allows you to easily use your existing hardware in the RK10. With the **cloud cash register software** from our subsidiary **LocaFox**, the RK10 becomes a **fully-fledged cash register system.**

removed and replaced. The **tablet holder** has **two sliders.** With these, the frame can be removed **without tools** and the tablet can be inserted or removed. The tablet can be protected against theft with an **optional screw lock.**

RK10K. ANKER uses **solid real metal** for both the templates and the screw elements. The RK10 is finished with a **high-quality powder coating.**

INDIVIDUAL VARIETY

DIFFERENT DESIGN COVERS

WOODEN COVER

LATTICE COVER COPPER

LATTICE COVER STAINLESS STEEL

CLOSED COVER

The design panels are attached to the RK10 with **magnets** and can thus be removed or replaced quickly and easily. ANKER offers you the design covers in a **wide variety of designs.** You have the choice between **wooden, lattice or closed panels.** The cut-out for a **customer display** is **optional** for all design panels.

The **wooden covers** are made of **oak** or **walnut** with a lasered ANKER logo as standard. These can also be provided with **individualised lettering or logos.**

Metal lattice covers are optionally made of **stainless steel** or **copper.**

AVAILABLE IN MANY COLOURS

Our RK10s are easy to **customise!** The **standard colours** of the cash register are **high-gloss black** and **pearl white.**

You have the option of having your RK10 individually powder-coated **in all RAL colours.** Temporarily, we will also produce **limited units in special colours.**
