

## till.one | mobile

THE MODERN TABLET POS SYSTEM

### The compact POS solution with time for service

With the till.one | mobile you choose the ideal way to design your own compact cash register system. The flexible applicable mounting offers room for the tablet of your choice and the Epson printer TM-m30. In this way you can make your POS even more functional.

### Clearly arranged, efficient and maximum flexibility

The tablet can be easily inserted and removed thanks to spring-loaded retaining clamps. It sits stable in the holder and can be used mobile at any time. So you can move freely in your shop in order to offer your customers the service they need. In addition to individual customer support, you can use your tablet to research, inform or carry out all tasks such as purchasing, stocktaking or bookkeeping.

### Timeless design united with easy and safe handling

The ANKER till.one | mobile stands out with its modern design. It is available in jetblack, anthracite and white. Thus the till.one | mobile scores not only with its functionality, but is also an eye-catcher. The optional safety lock secures your tablet against unauthorized removal and offers a maximum flexibility to authorized staff members. A hidden cable channel is located on the back.

#### Advantages

- Suitable for all common tablets
- Hidden cable channel on the back
- Expandable with functional accessories
- Optional safety lock
