

CountEasy 2

COUNTING MACHINES

Intelligent cash handling

More than **50.000 CountEasy** money counting machines take care of **correct end of day cash balance, every day.** The reliable technology is focused on relevant features and therefore reduces the training needs to a minimum. With CountEasy 2 you will **cash up** your POS in **less than a minute.** The simple use of the CountEasy 2 optimises the entire cash handling process, avoids complications and saves time.

The CountEasy 2 **speeds up sampling, skimming, deposits, shift changes and daily closings.**

In addition, you can purchase coin cups to help you counting the contents more quickly when using the CountEasy 2 as a coin counter and when counting a coin box.
