

## CountEasy 2

### COUNTING MACHINES

#### Intelligent cash handling

More than **50.000 CountEasy** money counting machines take care of **correct end of day cash balance, every day.** The reliable technology is focused on relevant features and therefore reduces the training needs to a minimum. With CountEasy 2 you will **cash up** your POS in **less than a minute.** The simple use of the CountEasy 2 optimises the entire cash handling process, avoids complications and saves time.

The CountEasy 2 **speeds up sampling, skimming, deposits, shift changes and daily closings.**

In addition, you can purchase coin cups to help you counting the contents more quickly when using the CountEasy 2 as a coin counter and when counting a coin box.

#### Features

- Large display with backlight
- Up to 32 languages
- Cash in hand function
- USB connection for easy upgrades
- Mobile use due to standard integrated rechargeable battery, easy transport
- Up to 12 hours battery life
- Expandable with a printer

#### PC connection

Count data can be transferred directly from the CountEasy 2 to a Windows PC using the „Connect“ software via the „Connect“ cable and processed there.

Easy to operate

Use with coin cups

Expandable with a printer

## CountEasy 2

LESS EFFORT, MORE TIME

### Advantages

- Industry-independent
- Space-saving and for mobile use

- Bundles of notes can be checked quickly and easily when counting the cash contents
- Optional coin cups speed up and simplify
- Can be used as letter scale

Flexi cup for simplified filling of coinage

Modular design for space-saving storage and transport

Coin cups for quick and easy counting

Large display with backlight

## CountEasy TS

COUNTING MACHINES

### Intelligent cash handling

In use worldwide, every day, for error-free cash counting. The high-resolution colour display with touchscreen technology, universally familiar symbols and intuitive design ensure that operators can easily use even complex functions.

The proven technology has been reduced to the relevant functions and therefore shortens the familiarisation period for staff. With the CountEasy TS, the **entire cash balance of a till can be recorded in less than 1 minute**. The simple use of the CountEasy TS optimises the entire cash handling process, avoids complications and saves time.

The CountEasy TS **speeds up sampling, skimming, deposits, shift changes and daily closings**.

In addition, coin cups can be purchased, which can be used as coin cups when using the CountEasy TS.

### Features

- Large display with backlight
- Up to 32 languages
- Cash register inventory function
- USB connection for uncomplicated upgrades
- Mobile use thanks to rechargeable battery fitted as standard
- Battery performance of up to 12 hours
- Easy to transport
- Expandable with printer

### PC connection

Counting data can be transferred directly from the CountEasy 2 to a Windows cable directly from the CountEasy 2 to a Windows PC for further processing.

Easy to operate
